INTERESTING FACTS ABOUT THE PIRTLE FACILITY

This 2-story office building is the first LEED Silver Certified building in the Town of Davie. The first floor includes a gym and private offices while the second floor serves as the main headquarters for Pirtle Construction. The building maintains a traditional office appeal while incorporating LEED standards that benefits the owner, occupants and environment.

The building's LEED components focused on reducing water and energy usage while creating a healthy indoor environment for the occupants. These goals were realized through the use of native landscaping, low flow plumbing fixtures, integrated lighting controls with day-lighting and occupancy sensors, reflective roofing materials and low-emitting materials. To reduce our footprint on the environment consideration was given to those materials that contained recycled content and were local to the area. A comprehensive waste plan was implemented to divert 83% of debris away from landfills and green power was purchased to offset our energy use.

YES, I want to attend!
