CASP hosts the 60th Annual Craftsmanship Awards

On Thursday, November 6, CASF honored 46 South Florida safety professionals recognized seven South Florida safety professionals for their efforts to improve the safety of the workplace.

Multiple winners from Bostic Steel pose with their awards. To register, visit casf.org or call (954) 974-6333. Cancellations require 72-hour notice.

Juneau Construction continues to grow on high-profile projects in both the public and private sectors. The firm is consistently ranked among the top 100 general contractors in the United States operating from corporate headquarters in Ft. Lauderdale for quality projects, over 85% repeat business and maximizing opportunities within their core markets in the Southeast. Juneau is not a firm that tries to be all things to all contractors.

In addition to selecting individual winners to become one of the elite contractors in the Southeast, CASF presented its 2018 Award for Overall Craftsmanship in a Commercial Project to the firm’s Cannon Park project. The Paramount: winner of the CASF 2018 Overall Craftsmanship in a Commercial Project.

Each winning craftsman was recognized on-stage under the guidance of CASF’s coveted judging panel. The Fifteen Judges: Members of the AIA, a professional organization of 125,000 architects, represented a broad cross-section of the South Florida design community.

Last year, the CASF added an additional award for outstanding high-rise building construction to its awards program. This year the award was presented to the firm’s high-rise project, the 501 Las Olas Square.
