

CASF hosts the 60th Annual Craftsmanship Awards

On Thursday, November 6, CASF honored 46 South Florida craftsmen with its coveted Craftsmanship Award. The 2018 awards mark the 60th straight year CASF has recognized the region's most skilled artisans for their exceptional work in a wide variety of categories segmented by CSI codes.

Each winning craftsman was recognized on-stage and presented with a customized award. In addition, CASF presented commemorative plaques to each craftsman's employer.

In keeping with the high standards it celebrates, the CASF Craftsmanship Awards are marked by a rigorous judging process. It begins with an extensive application and vetting. Then, each project is visited by a three-person judge's panel composed of a general contractor, architect and engineer. Six judges' panels blanket South Florida to ensure each project is subject to an on-site inspection.

All the judges then meet to review each project and vote on winners by category. If no project achieves the required level of excellence, no winner in

that category is announced for that year.

At last year's event, the physical award was officially renamed the John E. Custer Craftsmanship Award, or "The Custer." Custer was charter CASF member, and the award was renamed in his honor to recognize his decades-long contribution to putting on and promoting the CASF Craftsmanship Awards.

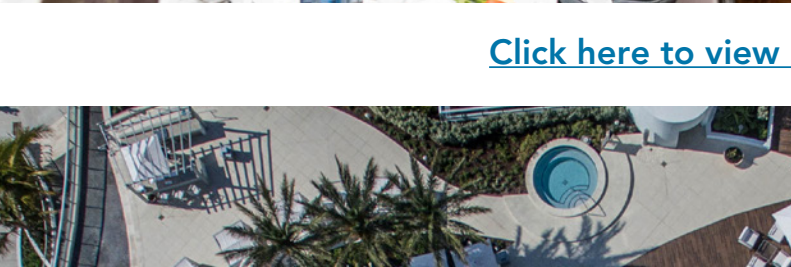

In addition to selecting individual winners to receive a 2018 Custer, this year's judges awarded two overall project awards.

Structural Roof Systems and Coastal Construction Group were recognized for delivering the Residential Project of the Year.

CASF presented its 2018 Award for Overall Craftsmanship in a Commercial Project to the Paramount. The 18-story luxury tower was recently completed by Stiles Construction Company. The Paramount is the first new high-rise built on Fort Lauderdale beach in more than a decade. A number of craftsmen won individual awards at the Paramount, and the judges noted the consistent level of high-quality work throughout the project.

Multiple winners from Bostic Steel pose with their awards.

The team behind The Paramount: Stiles Construction, Desimone Consulting Engineers and Revuelta Associates.

CASF Presents 2018 Safety Professional of the Year Awards

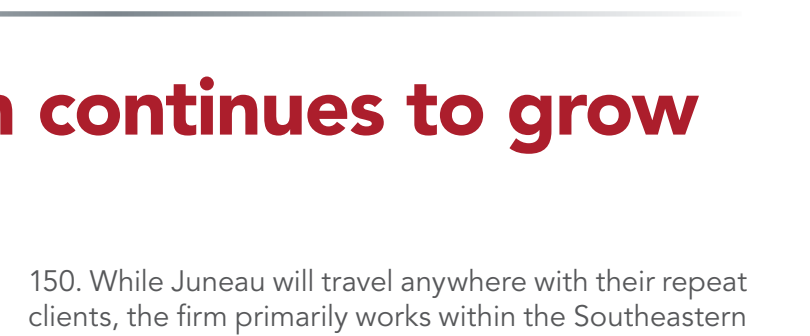

On October 18, at its Fall Safety Forum, CASF recognized seven South Florida safety professionals for significant contributions to their respective companies' exemplary safety records. They were, (pictured left to right) Keith Harkins (Weitz Sikora), Denise Fargnoli (Quest Thompson), Cindy Sikora (Moraca Builders), Caitlynn Thompson (McGilvray Mechanical), Ricky Rivera (Lotspeich), David Weingarten (Hypower) and Brian Trusky (Coastal Construction).

Juneau Construction continues to grow in South Florida

Founded by husband-wife duo Les and Nancy Juneau, Juneau Construction Company is an Atlanta-based construction firm with a regional office in Miami. The industry-leading company performs as Construction Managers, Design-Builders and General Contractors on high-profile projects in both the public and private sectors.

Since its founding in 1997, Juneau has gone on to become one of the elite contractors in the Southeast. The firm is consistently ranked among the top contractors in the country within core market segments. For the last several years, Juneau has appeared among the Top Builders of Multi-Family, Hotel, and Institutional Buildings in the country. Juneau is also a Top South Florida and Atlanta Contractor, ENR Top 400 Contractor, and the #1 ranked woman-owned construction firm in Georgia.

"As one of the nation's premiere mid-sized commercial contractors, we are committed to being a best-in-class firm in every aspect of business — from the projects to the people to the communities we impact," Nancy Juneau said.

Core markets include Higher Education Auxiliary Facilities (Housing, Dining, Student Centers, Parking Decks), Higher Education Academic Buildings, Recreation & Athletic Facilities, Multi-Family & Mixed-Use, Senior Living, Hospitality, and Historic Restoration.

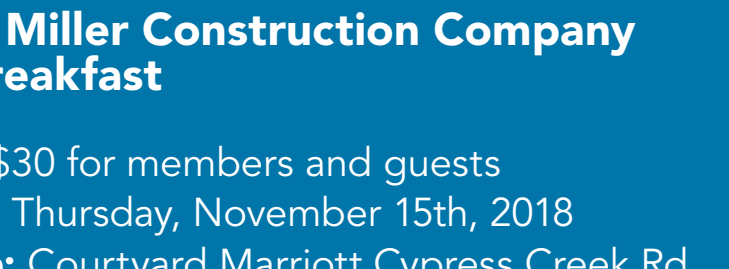

In 21 years, Juneau's revenues have grown to over \$250 million annually and the professional staff exceeds

150. While Juneau will travel anywhere with their repeat clients, the firm primarily works within the Southeastern United States operating from corporate headquarters in Atlanta with the regional office in Miami.

The firm is guided by its culture of family, where each of its talented associates are committed to the fact that Juneau is in business to produce "best in class" projects with clients who share in their ideals of teamwork and professionalism.

Juneau is not a firm that tries to be all things to all people. The strategy for growth is centered around maximizing opportunities within their core markets on a local, regional, and national level. Juneau's commitment to be the best is evident by their 48 Awards of Excellence for quality projects, over 85% repeat business and employee retention rates, as well as a culture that is dedicated to safety.

Juneau Construction Company can be contacted at their regional office at 5775 Blue Lagoon Drive, Suite 400, Miami, FL 33126 – or via phone at 305-438-7666. You can also check out their web site at www.juneauccc.com.

UPCOMING CASF EVENTS

NOVEMBER NETWORKING BREAKFAST

Come to CASF's monthly breakfast to learn about Miller Construction Company, their upcoming projects and how you can get involved! Enjoy a light breakfast while you meet key players and expand your professional network.

Miller Construction Company
relationships that build™

WHEN
Thursday, November 15, 2018
7:30-9:30 am

WHERE
COURTYARD MARriott CYPRESS CREEK
2541 W Cypress Creek
Fort Lauderdale, FL 33309

Cost: \$20 (for person if registered by November 13th, \$30 thereafter and at the door)
Cancellations require 72-hour notice
No show policy in effect

Registration Sponsor **structural**

Meet Miller Construction Company for Breakfast

Cost: \$30 for members and guests
When: Thursday, November 15th, 2018
Where: Courtyard Marriott Cypress Creek Rd.

Come out and meet the key people of Miller Construction Company as they present their upcoming projects. Enjoy a light breakfast while you expand your professional network.
